

OPERATE ELEVATING WORK PLATFORM

(under 11 metres)

RIIHAN301E

EWP courses are intended for those working in operational roles. It is required for those who need to obtain an operator licence, which includes those who already have a High-Risk licence or a working at height ticket. You may also need to complete the training if you have an old Yellow Card or have not completed the training in the past five years.

This course is designed to give workers the information needed to safely operate a boom-type elevating work platform with a boom length of under 11 metres. The training covers the use of EWPs that do not require a High-Risk licence. This includes the following types of platforms:

- Scissor lifts (SL)
- Vertical lifts (VL)
- Boom lifts (BL)

Please note that this course does NOT cover the EWP ticket Sydney for operating an EWP with a book length of 11 metres or more. To get this ticket, you will need to attend the training of our course of TLILIC0005 – Licence to Operate a Boom-Type Elevating Work Platform (Book Length 11 meters or more).
